INTERNATIONAL ADVISORY BOARD  
CONSEIL CONSULTATIF INTERNATIONAL

Prof. Alan C. Bird, London  
Dr. Gerald J. Chader, Bethesda, Md.  
Prof. Yves M. Pouliquen, Paris

TRANSLATION EDITOR  
DIRECTEUR DE LA TRADUCTION  
Robert Chevrier, MD, FRCSC

## EDITORES EMERITI

Drs. David J. Addison,  
Cecil C. Ewing,  
Brent J. MacInnis,  
J. Clement McCulloch,  
Donald W. Mills,  
Howard N. Reed

## SUBJECTS • SUJETS

## Accident prevention:

Saving sight in sports [E], Pashby T, 181-2

## Acute disease:

Atypical features prompting neuroimaging in acute optic neuropathy in adults, Lee AG et al, 325-30

## Acute optic neuropathy: See Optic nerve diseases

See also Acute disease

## Administration, topical:

Canalicular stenosis due to topical use of fortified antibiotics, Weston BC et al, 334-5

Topical plus intracameral anesthesia for a triple procedure (penetrating keratoplasty, phacoemulsification and lens implantation), Silvera D et al, 331-3

## Adolescence:

Ultrasound detection of posterior scleral bowing in young

patients with choroidal melanoma, Chin Cham M et al, 263-6

## Adrenal cortex hormones:

Inadvertent intracorneal and intraocular corticosteroid injection, DeAngelis D et al, 273-4

## Age factors:

Ultrasound detection of posterior scleral bowing in young patients with choroidal melanoma, Chin Cham M et al, 263-6

## Age-related macular degeneration: See Macular degeneration

## Air bags:

Ultrasound biomicroscopy in diagnosis of a cyclodialysis cleft in a patient with corneal edema and hypotony after an air bag injury, Chialant D et al, 148-50

**Algorithms:**

Update in glaucoma: Journal Club overview, Trope GE et al, 303-6

**Amblyopia:**

Evaluation of the iScreen digital screening system for amblyogenic factors, Kennedy RA et al, 258-62

Evaluation of the iScreen digital screening system for amblyogenic factors [Discussion], De Becker I, 262

**Ambulatory surgery:**

Canadian Ophthalmological Society practice guidelines for refractive surgery, Canadian Ophthalmological Society Working Group on Refractive Surgery Practice Guidelines, 307-10

A cautionary tale: orbital and lacrimal surgery services in Canada [E], McWhae JA et al, 300-1

**Ametropia:** See Refractive errors

**Aminoglycosides:**

Tobramycin-responsive *Fusarium oxysporum* keratitis, Chodosh J et al, 29-30

**Anesthesia:**

Topical plus intracameral anesthesia for a triple procedure (penetrating keratoplasty, phacoemulsification and lens implantation), Silvera D et al, 331-3

**Anesthesia, conduction:**

A discourse on the complications of retrobulbar and peribulbar blockade, Hamilton RC, 363-72

Inadvertent intracorneal and intraocular corticosteroid injection, DeAngelis D et al, 273-4

**Anesthesia, regional:** See Anesthesia, conduction

**Angioma:** See Hemangioma

**Angle recession:** See Anterior chamber

See also Wounds and injuries

**Anterior chamber:**

Ultrasound biomicroscopy in diagnosis of a cyclodialysis cleft in a patient with corneal edema and hypotony after an air bag injury, Chialant D et al, 148-50

**Antibiotics:**

Canalicular stenosis due to topical use of fortified antibiotics, Weston BC et al, 334-5

Effect of prophylactic antibiotics and incision type on the incidence of endophthalmitis after cataract surgery, Colleaux KM et al, 373-8

**Anticoagulants:**

Prevalence of ocular hemorrhage in patients receiving warfarin therapy, Superstein R et al, 385-9

**Aqueous humour:**

Acute lymphocytic blast crisis as an ocular manifestation of chronic granulocytic leukemia, Lakosha H et al, 336-9

**Argon:**

Comparison of the efficacy of argon green and krypton yellow laser photocoagulation by sectorial treatment of a circumscribed choroidal hemangioma, Boucher MC, 23-5

**Argon green laser:** See Argon

See also Lasers

**Arterial occlusive diseases:**

Characteristics of patients presenting with central retinal artery occlusion with and without giant cell arteritis, Connolly BP et al, 379-84

**Automobile driver examination:**

Canadian Ophthalmological Society recommendations for driving standards and procedures in Canada, Canadian Ophthalmological Society Working Group on Driving Standards, 187-91

Vision standards for driving in Canada [E], Anderson DP, 183-4

Vision standards for driving in Canada and the United States. A review for the Canadian Ophthalmological Society, Casson EJ et al, 192-203

**Automobile driving:**

Canadian Ophthalmological Society recommendations for driving standards and procedures in Canada, Canadian Ophthalmological Society Working Group on Driving Standards, 187-91

Vision standards for driving in Canada [E], Anderson DP, 183-4

Vision standards for driving in Canada and the United States. A review for the Canadian Ophthalmological Society, Casson EJ et al, 192-203

**Binocular vision:** See Vision, binocular

**Blast crisis:**

Acute lymphocytic blast crisis as an ocular manifestation of chronic granulocytic leukemia, Lakosha H et al, 336-9

**Brain stem:**

A discourse on the complications of retrobulbar and peribulbar blockade, Hamilton RC, 363-72

**Branch retinal vein occlusion:** See Retinal vein occlusion

**Burden of illness:** See Cost of illness

**Canadian Journal of Ophthalmology:**

Back to the future [E], MacDonald IM, 1-2

What's our Journal all about? [E], MacDonald IM, 299

**Canadian Ophthalmological Society:**

Back to the future [E], MacDonald IM, 1-2

**Canalicular stenosis:** See Lacrimal apparatus diseases

**Cardiovascular system:**

The complication rate of edrophonium testing for suspected myasthenia gravis, Ing EB et al, 141-5

The complication rate of edrophonium testing for suspected myasthenia gravis [Discussion], Anderson DP, 145

**Case report:**

What's our Journal all about? [E], MacDonald IM, 299

**Cataract:**

Determining the information needs for prevention of vision loss strategies in Canada, Public Health Task Force for Vision and Ophthalmology, 255-7

New guidelines or old? [E], MacDonald IM, 245-6

**Cataract extraction:**

Cataract extraction by phacoemulsification in a sympathizing eye, DeAngelis D et al, 26-8

Effect of prophylactic antibiotics and incision type on the incidence of endophthalmitis after cataract surgery, Colleaux KM et al, 373-8

Topical plus intracameral anesthesia for a triple procedure (penetrating keratoplasty, phacoemulsification and lens implantation), Silvera D et al, 331-3

**Central nervous system:**

Atypical features prompting neuroimaging in acute optic neuropathy in adults, Lee AG et al, 325-30

**Central retinal artery occlusion:** See Retinal artery occlusion  
**Child:**

Commentary on guidelines for screening for retinopathy of prematurity, Ells A et al, 253-4

Evaluation of the iScreen digital screening system for amblyogenic factors, Kennedy RA et al, 258-62

Evaluation of the iScreen digital screening system for amblyogenic factors [Discussion], De Becker I, 262

Guidelines for screening examinations for retinopathy of prematurity, Canadian Association of Pediatric Ophthalmologists Ad Hoc Committee on Standards of Screening Examination for Retinopathy of Prematurity, 251-2

New guidelines or old? [E], MacDonald IM, 245-6

**Choroid diseases:**

Acute lymphocytic blast crisis as an ocular manifestation of chronic granulocytic leukemia, Laksha H et al, 336-9

Choroidal melanoma and rhegmatogenous retinal detachment, Laksha H et al, 151-3

Choroidal neovascularization following argon laser photocoagulation for macular edema associated with branch retinal vein obstruction, Shah GK et al, 427-30

Comparison of the efficacy of argon green and krypton yellow laser photoagulation by sectorial treatment of a circumscribed choroidal hemangioma, Boucher MC, 23-5

Ultrasound detection of posterior scleral bowing in young patients with choroidal melanoma, Chin Cham M et al, 263-6

**Choroidal hemangioma:** See Hemangioma

See also Choroid diseases

**Choroidal infiltration:** See Leukemic infiltration

See also Choroid diseases

**Choroidal melanoma:** See Melanoma

See also Choroid diseases

**Choroidal neovascularization:**

Choroidal neovascularization following argon laser photocoagulation for macular edema associated with branch retinal vein obstruction, Shah GK et al, 427-30

**Chronic granulocytic leukemia:** See Leukemia, myeloid, chronic**Chronic myeloid leukemia:** See Leukemia, myeloid, chronic**Colour perception:**

Canadian Ophthalmological Society recommendations for driving standards and procedures in Canada, Canadian Ophthalmological Society Working Group on Driving Standards, 187-91

Vision standards for driving in Canada [E], Anderson DP, 183-4

Vision standards for driving in Canada and the United States. A review for the Canadian Ophthalmological Society, Casson EJ et al, 192-203

**Colour vision:** See Colour perception**Complications:** See Intraoperative complications

See also Postoperative complications

**Congenital stationary night blindness, incomplete:** See Night blindness

See also Hereditary diseases

**Contrast sensitivity:**

Canadian Ophthalmological Society recommendations for driving standards and procedures in Canada, Canadian Ophthalmological Society Working Group on Driving Standards, 187-91

Le sens morphoscopique à contraste et luminance variables chez 97 appels du contingent, de La Marnier E et al, 5-11

Vision standards for driving in Canada [E], Anderson DP, 183-4

Vision standards for driving in Canada and the United States. A review for the Canadian Ophthalmological Society, Casson EJ et al, 192-203

**Corneal stroma:**

Polymerase chain reaction in the diagnosis of herpetic keratitis: experience in a developing country, Pramod NP et al, 134-40

**Corneal transplantation:**

Epithelial ingrowth following penetrating keratoplasty: a clinical, ultrasound biomicroscopic and histopathological correlation, Daneshvar H et al, 222-4

Topical plus intracameral anesthesia for a triple procedure (penetrating keratoplasty, phacoemulsification and lens implantation), Silvera D et al, 331-3

**Corneal ulcer:**

Canalicular stenosis due to topical use of fortified antibiotics, Weston BC et al, 334-5

**Cortical insult:** See Wounds and injuries

See also Visual cortex

**Corticosteroids:** See Adrenal cortex hormones**Cost of illness:**

Determining the information needs for prevention of vision loss strategies in Canada, Public Health Task Force for Vision and Ophthalmology, 255-7

**Cost-benefit analysis:**

Converting visual acuity to utilities, Sharma S et al, 267-72

**Cyclodialysis cleft:**

Ultrasound biomicroscopy in diagnosis of a cyclodialysis cleft in a patient with corneal edema and hypotony after an air bag injury, Chialant D et al, 148-50

**Cyclosporine:**

Cataract extraction by phacoemulsification in a sympathizing eye, DeAngelis D et al, 26-8

**Dacryocystorhinostomy:**

Outcome of lacrimal surgery in older patients, Hurwitz JJ et al, 18-22

**Decision making:**

Converting visual acuity to utilities, Sharma S et al, 267-72

**Delivery of health care:**

A cautionary tale: orbital and lacrimal surgery services in Canada [E], McWhae JA et al, 300-1

Determining the information needs for prevention of vision loss strategies in Canada, Public Health Task Force for Vision and Ophthalmology, 255-7

Lorenzetti Lecture: Leadership: it's our turn, LeBlanc RP, 311-4

**Diabetic retinopathy:**

Determining the information needs for prevention of vision loss strategies in Canada, Public Health Task Force for Vision and Ophthalmology, 255-7  
New guidelines or old? [E], MacDonald IM, 245-6

**Diagnosis:**

The complication rate of edrophonium testing for suspected myasthenia gravis, Ing EB et al, 141-5  
The complication rate of edrophonium testing for suspected myasthenia gravis [Discussion], Anderson DP, 145  
Polymerase chain reaction in the diagnosis of herpetic keratitis: experience in a developing country, Pramod NP et al, 134-40

**Diagnostic imaging:**

Atypical features prompting neuroimaging in acute optic neuropathy in adults, Lee AG et al, 325-30  
Epithelial ingrowth following penetrating keratoplasty: a clinical, ultrasound biomicroscopic and histopathological correlation, Daneshvar H et al, 222-4  
Essential iris atrophy mimicking iris neoplasm: an ultrasound biomicroscopic study, Lakosha HM et al, 490-3  
Ultrasound biomicroscopy in diagnosis of a cyclodialysis cleft in a patient with corneal edema and hypotony after an air bag injury, Chialani D et al, 148-50  
Ultrasound detection of posterior scleral bowing in young patients with choroidal melanoma, Chin Cham M et al, 263-6

**Driving:** See Automobile driving

**Drug administration routes:**

A discourse on the complications of retrobulbar and peribulbar blockade, Hamilton RC, 363-72

**Drug administration, topical:** See Administration, topical

**Drug therapy:**

Canalicular stenosis due to topical use of fortified antibiotics, Weston BC et al, 334-5  
Effect of latanoprost as adjunctive therapy, DesMarchais B et al, 214-7  
Update in glaucoma: Journal Club overview, Trope GE et al, 303-6

**Drug therapy, combination:**

Effect of latanoprost as adjunctive therapy, DesMarchais B et al, 214-7

**Drug toxicity:**

The complication rate of edrophonium testing for suspected myasthenia gravis, Ing EB et al, 141-5  
The complication rate of edrophonium testing for suspected myasthenia gravis [Discussion], Anderson DP, 145  
A discourse on the complications of retrobulbar and peribulbar blockade, Hamilton RC, 363-72

**Edrophonium:**

The complication rate of edrophonium testing for suspected myasthenia gravis, Ing EB et al, 141-5  
The complication rate of edrophonium testing for suspected myasthenia gravis [Discussion], Anderson DP, 145

**Education, medical, graduate:**

Back to the future [E], MacDonald IM, 1-2

**Elderly:** See Geriatrics

**Electroretinography:**

Clinical variability among patients with incomplete X-linked congenital stationary night blindness and a founder mutation in *CACNA1F*, Boycott KM et al, 204-13

Clinical variability among patients with incomplete X-linked congenital stationary night blindness and a founder mutation in *CACNA1F* [Discussion], De Becker I et al, 213

**Endophthalmitis:**

Effect of prophylactic antibiotics and incision type on the incidence of endophthalmitis after cataract surgery, Colleaux KM et al, 373-8

Ocular factitious disorder presenting as endophthalmitis, Taher RM et al, 31-4

Severe ocular injury from orthodontic headgear, Shaver S et al, 218-21

**Epithelial downgrowth:** See Epithelium

**Epithelial ingrowth:** See Epithelium

**Epithelium:**

Epithelial ingrowth following penetrating keratoplasty: a clinical, ultrasound biomicroscopic and histopathological correlation, Daneshvar H et al, 222-4

**Essential iris atrophy:** See Iris diseases

**Evidence-based medicine:**

Converting visual acuity to utilities, Sharma S et al, 267-72  
What's our Journal all about? [E], MacDonald IM, 299

**Exophthalmos:**

Voluntary globe subluxation, Jordan DR, 146-7

**Extraocular muscles:** See Oculomotor muscles

**Extraoral traction appliances:**

Severe ocular injury from orthodontic headgear, Shaver S et al, 218-21

**Eye:**

Going solo [E], MacDonald IM, 359-60

Lorenzetti Lecture: Leadership: it's our turn, LeBlanc RP, 311-4

**Eye diseases:**

Converting visual acuity to utilities, Sharma S et al, 267-72

**Eye hemorrhage:**

A discourse on the complications of retrobulbar and peribulbar blockade, Hamilton RC, 363-72

Prevalence of ocular hemorrhage in patients receiving warfarin therapy, Superstein R et al, 385-9

**Eye infections, parasitic:**

Intraocular gnathostomiasis: a rare Canadian case, Qahtani F et al, 35-9

**Eye injuries:**

Saving sight in sports [E], Pashby T, 181-2

Severe ocular injury from orthodontic headgear, Shaver S et al, 218-21

**Eye neoplasms:**

Essential iris atrophy mimicking iris neoplasm: an ultrasound biomicroscopic study, Lakosha HM et al, 390-3

Ultrasound detection of posterior scleral bowing in young patients with choroidal melanoma, Chin Cham M et al, 263-6

**Eye surgery:** See Surgery, eye

**Eye tumours:** See Eye neoplasms

**Face bow, orthodontic:** See Extraoral traction appliances

**Factitious disorders:**

- Ocular factitious disorder presenting as endophthalmitis, Taher RM et al, 31–4
- Ocular factitious disorder presenting as endophthalmitis [C], Jordan DR, 247–8

**Form perception:**

- Le sens morphoscopique à contraste et luminance variables chez 97 appels du contingent, de La Marnier E et al, 5–11

**Fusarium oxysporum:**

- Tobramycin-responsive *Fusarium oxysporum* keratitis, Chodosh J et al, 29–30

**Gene expression:**

- Update in glaucoma: Journal Club overview, Trope GE et al, 303–6

**Genes:**

- The genetic aspects of adult-onset glaucoma: a perspective from the Greater Toronto area, Williams-Lyn D et al, 12–7

**Genetics:**

- Autosomal dominant Stargardt-like macular dystrophy segregating in a large Canadian family, Lagali PS et al, 315–24

**Geriatics:**

- A cautionary tale: orbital and lacrimal surgery services in Canada [E], McWhae JA et al, 300–1
- Outcome of lacrimal surgery in older patients, Hurwitz JJ et al, 18–22

**Giant cell arteritis:** See Temporal cell arteritis

**Glaucoma:**

- Determining the information needs for prevention of vision loss strategies in Canada, Public Health Task Force for Vision and Ophthalmology, 255–7
- Essential iris atrophy mimicking iris neoplasm: an ultrasound biomicroscopic study, Lakosha HM et al, 390–3
- The genetic aspects of adult-onset glaucoma: a perspective from the Greater Toronto area, Williams-Lyn D et al, 12–7
- New guidelines or old? [E], MacDonald IM, 245–6
- Update in glaucoma: Journal Club overview, Trope GE et al, 303–6

**Glaucoma, open-angle:**

- Effect of latanoprost as adjunctive therapy, DesMarchais B et al, 214–7
- The genetic aspects of adult-onset glaucoma: a perspective from the Greater Toronto area, Williams-Lyn D et al, 12–7

**Globe dislocation:** See Exophthalmos

**Globe subluxation:** See Exophthalmos

**Gnathostoma:**

- Intraocular gnathostomiasis: a rare Canadian case, Qahtani F et al, 35–9

**Graduate training:** See Education, medical, graduate

**Granulocytic leukemia, chronic:** See Leukemia, myeloid, chronic

**Growth factors:** See Growth substances

**Growth substances:**

Update in glaucoma: Journal Club overview, Trope GE et al, 303–6

**Guidelines for health planning:** See Health planning guidelines

**Guidelines, practice:** See Practice guidelines

**Head trauma:** See Wounds and injuries

**Headgear, orthodontic:** See Extraoral traction appliances

**Health care decisions:** See Health policy

See also Decision making

**Health care delivery:** See Delivery of health care

**Health care reform:**

A cautionary tale: orbital and lacrimal surgery services in Canada [E], McWhae JA et al, 300–1

Do they have to take the eye out? [E], MacDonald IM, 123–4

**Health planning guidelines:**

Determining the information needs for prevention of vision loss strategies in Canada, Public Health Task Force for Vision and Ophthalmology, 255–7

New guidelines or old? [E], MacDonald IM, 245–6

**Health policy:**

Converting visual acuity to utilities, Sharma S et al, 267–72

Lorenzetti Lecture: Leadership: it's our turn, LeBlanc RP, 311–4

**Health resources:**

Do they have to take the eye out? [E], MacDonald IM, 123–4

**Health services:**

Determining the information needs for prevention of vision loss strategies in Canada, Public Health Task Force for Vision and Ophthalmology, 255–7

Going solo [E], MacDonald IM, 359–60

**Health services needs and demand:**

Back to the future [E], MacDonald IM, 1–2

A cautionary tale: orbital and lacrimal surgery services in Canada [E], McWhae JA et al, 300–1

Difference between ophthalmologists' and patients' perceptions of quality of life associated with age-related macular degeneration, Brown GC et al, 127–33

Difference between ophthalmologists' and patients' perceptions of quality of life associated with age-related macular degeneration [Discussion], Courtright P, 133

Lorenzetti Lecture: Leadership: it's our turn, LeBlanc RP, 311–4

**Health technology assessment:** See Technology assessment, biomedical

**Hemangioma:**

Angioma formation: a late complication of scleral buckling surgery, Silvera D et al, 394–6

Comparison of the efficacy of argon green and krypton yellow laser photocoagulation by sectorial treatment of a circumscripted choroidal hemangioma, Boucher MC, 23–5

**Hemorrhage, retinal:** See Retinal hemorrhage

**Hemorrhage, vitreous:** See Vitreous hemorrhage

**Hereditary diseases:**

Autosomal dominant Stargardt-like macular dystrophy segregating in a large Canadian family, Lagali PS et al, 315–24

Clinical variability among patients with incomplete X-linked congenital stationary night blindness and a founder mutation in *CACNA1F*, Boycott KM et al, 204-13

Clinical variability among patients with incomplete X-linked congenital stationary night blindness and a founder mutation in *CACNA1F* [Discussion], De Becker I et al, 213

The genetic aspects of adult-onset glaucoma: a perspective from the Greater Toronto area, Williams-Lyn D et al, 12-7

**Herpes simplex virus:** See Simplexvirus

**Hockey:**  
Saving sight in sports [E], Pashby T, 181-2

**Iatrogenic disease:**  
Inadvertent intracorneal and intraocular corticosteroid injection, DeAngelis D et al, 273-4

**Ice hockey:** See Hockey

**Imaging techniques:** See Diagnostic imaging

**Immunosuppression:**  
Cataract extraction by phacoemulsification in a sympathizing eye, DeAngelis D et al, 26-8

**Incision:** See Surgery, operative

**Incomplete congenital stationary night blindness:** See Night blindness

See also Hereditary diseases
